ABOUT ME

I first got acquainted with programming during my first year at the university. I self-learned this field, using various resources - Google, books, Stack Overflow, and YouTube. I particularly enjoy challenging and interesting tasks that require creativity and logical thinking. Programming is also my hobby, which inspires personal development and helps me better understand the world of technology.

HOBBY

 Play computer games

 Read books

 Watch comedy TV shows

LANGUAGES

 Ukrainian - Native

 English - at the level of reading the documentation
