ABOUT ME

I first got acquainted with programming during my first year at the university. I self-learned this field, using various resources - Google, books, Stack Overflow, and YouTube. I particularly enjoy challenging and interesting tasks that require creativity and logical thinking. Programming is also my hobby, which inspires personal development and helps me better understand the world of technology.
HOBBY

- Play computer games
- Read technical books
- Watch comedy TV shows

LANGUAGES

- Ukrainian - Native
- English - at the level of reading the documentation

EDUCATION

Lviv Polytechnic National University

2020-2024 Information systems and technologies(bachelor)
